

Internship with Tampa-Based Investment Firm

Pursuant Capital is a Tampa-based, privately-financed search fund *in pursuit* of profitable small businesses to buy and operate for the long term.

We are seeking 1-3 highly motivated, full-time or part-time interns to assist with the search and acquisition process starting in Summer 2019. **Applications (resume and a paragraph explaining your interest) should be submitted to: info@PursuantCapital.com.**

Daily responsibilities of interns include:

- Developing and researching select industries of interest
- Developing and contacting lists of potential business targets
- Evaluating company business models
- Developing and contacting sources of deal flow
- Preparing due diligence questions and materials
- Assisting in the entire sourcing and acquisition process

Over time, it is expected that the interns will gain fluency in all aspects of sourcing and evaluating small business investment opportunities, from signing the initial non-disclosure agreement to conducting diligence and making purchase offers. Thus, the ideal intern would:

- Be articulate and fluent in English and business/finance terminology
- Have an interest in investing/finance and business operations
- Have baseline knowledge of financial statements (we will help!)
- Have a comfort with making cold calls to business owners and companies
- Be able to work at our office in Tampa and remotely
- Be flexible, creative and assertive, and bring a positive attitude to the office

This is an unpaid internship. Applicants who will receive academic credit from their college or university are preferred. We promise a fun working environment, the ability to take on increasing levels of responsibility, and first-hand exposure to young entrepreneurs with significant M&A and business operations experience. Throughout the internship we will offer educational and career-advancement opportunities (e.g. case studies, introductions to professionals in the industry, lunch-and-learns, etc.), and we will help strong interns evaluate and pursue employment opportunities.

You can read more about Pursuant Capital at our website: PursuantCapital.com.

Applications (resume and a brief paragraph explaining your interest) should be submitted to: info@PursuantCapital.com. We look forward to hearing from you.
